Milton conteins by an old survey 230 acres. The soil is stiff, and particularly excellent for the culture of what, and from the level on face which it presents, may be improved to the greatest advintable.

The situation commands a beautiful and extensive view of James River, boing on the 7 Mills Reach. Fish, and wild fowl are very convenient in their statoms and Opsters they be had in a boundance from the Boats, which mass almost every day in the Fall and Winter months.

There is a good and convenient DWELLING HOUSE on this land, with 5 rooms and a large passage it is now in good condition for the reception of a family. The out houses are convenient; and are now in a tolerable state if repair, He will also sell that TRACT OF LAND inown by the name of Brown's Quarter and in the county of Charles City, S or 4 miles below the Court House. This trace originally contain, ed 334 acres by an old survey; but a small part offic, at the north end having been lately sold, it is supposed now to contain about 200 acres.

This land ab unds with excellent timber. The soil is light, and casy to cultivate, and produces Indian Corn and Rye very well. On this land is an unfinished Dwelling Itouse 20 feet by 30—and a spring of water, equal to any in the lower country.

He will also [as Agent for Miss Anh B.
